SUBJECT INDEX

Aberrations, chromosomal, following ocular irradiation, 494
Abnormalities, ocular, associated with first and second arch syndromes, 30
Accommodation, theory of central control, 150
Acuity, visual, influence of luminance in amblyopia, 497
Allergy, in uveitis, streptolysin O, 130
Amblyopia, influence of luminance on visual acuity, 497
Anastomoses, retino-choroidal venous, in ora serrata, 81
Aniridia, congenital, and Wilms' tumor, 140
Anisometropia, management, 433
Anomaly, ocular, in child with supernumerary chromosomal fragment, 495
Aphakia, prognosis of retinal detachment, 496
Aqueous humor, and serum, comparison studies by means of dye test, 352
Argyll Robertson pupil, 1869–1969, critical study of the literature, 199
Artery, ophthalmic, increased circulation in revascularization of optic nerve in glaucomatous patient, 145
Astigmatism, oblique, and cyclophoria, 86
Azathioprine, treatment of sympathetic ophthalmitis, 132

Blackberry caterpillar, caterpillar hair uveitis, 351
